

Ramya Ramesh

Project Coordinator with 5+ years of experience supporting project delivery, stakeholder communication, and cross-functional team coordination. Skilled in CRM and data management, documentation control, reporting, and process improvement, ensuring accurate project execution, operational compliance, and successful delivery outcomes.

Work Experience

Process Analyst / Project Coordinator & Client Liaison, Bread Financial

August 2020 – December 2023

- Coordinated project execution, resource allocation, stakeholder communication, milestone tracking, and cross-functional project handovers.
- Maintained project data integrity, documentation repositories, and risk/issue logs ensuring audit readiness and compliance with internal standards.
- Supported digital transformation through process automation, UAT, deployment tracking, and performance reporting using Excel and Power BI.

Customer Relationship Coordinator / Project Support, Mojhi Technologies Pvt. Ltd.

January 2018 – January 2020

- Supported customer and sales initiatives through project tracking, client communication, requirements gathering, and status reporting.
- Maintained CRM records and project documentation while coordinating cross-functional teams and ensuring document accuracy and version control.

Customer Relations, Skechers Canada

April 2024 – Present

- Delivered excellent customer service, resolving inquiries and supporting daily store operations through POS systems.
- Managed inventory, stock replenishment, merchandising, audits, and stock counts while mentoring new team members.

Projects

Fundraising Event Coordination (Simon House – Non-Profit)

- Led project planning, schedule management, vendor/client coordination, and reporting for a community fundraising event.

Employee Onboarding & Scheduling AI Tool

- Drove requirements gathering, workflow coordination, and stakeholder communication for an AI-powered onboarding scheduling tool.

Supply & Disposition Reporting (Evergreen Marine Corps)

- Delivered performance reporting, trend analysis, and process improvement support for supply chain operations.

Parkinson's Data Analysis Dashboard

- Coordinated dashboard delivery through requirements gathering, stakeholder collaboration, and reporting to enable data-driven healthcare insights.
